SCHOOL REPORT.

REPORT OF SCHOOL BOARD.

To the Voters of the District of Belmont:

With the appropriations there has been a maximum school year of 34 weeks. No school has been in session at Ladd Hill for the fall and winter term, conveyance being furnished to the Union district

With your appropriation we have installed Flush Closets at Gale school. In looking over the systems in other towns we were convinced we should put in a larger outfit than planned for last year therefore it was necessary to use some school money for this purpose. But we have a first-class outfit which includes a separate entrance for the girls, and a 6000 gal. cess pool.

We advise the continuance of the school gardens the coming season.

Owing to the serious illness of Dr. Blanchard, the medical inspection was delayed so we are unable to report results but we recommend the continuance and urge more cooperation of the parents to get the best results and benefits.

Our financial return from the state was less than last year and we recommend the following amounts as necessary for the current year.

General school money	$1,600 00
Tuition,	500 00
Text books and supplies,	250 00
Repairs	100 00
Medical inspection	50 00
Required by law	1,785 00
Flags and poles,	30 00
Estimated income, from State Dec. 15.	1,150 00

Respectfully submitted,

James C. Hill,
Lillian M. Knowles,
Juan A. Smith,
School Board of Belmont.

REPORT OF SUPERINTENDENT OF SCHOOLS.

To the School Board of Belmont:

I submit herein my fifth annual report as Superintendent of schools.

Gale School.

We have been fortunate in retaining the teachers of the upper rooms. The positions left vacant by the resignations of Miss Currier and Miss Badger have been acceptably filled by Miss Carrie L. Wyatt, grades three and four, and Miss Jeanie F. Hardy, grades one and two.

Two pupils in this school, and three in the Upper Province Road School, have returned this year for further study after completing the work of the eighth grade. Some of these will finish their school life this year, while others will go on to the high school next fall.

It has required some thought to plan a curriculum which should satisfy both groups, and which should, at the same time, avoid mere uninteresting drill on studies already taken, and an anticipation of future work such as would tend to make the freshman studies seem stale and uninteresting when pupils enter the high school. We have tried to make the reviews a strengthening of weak points in the pupil's knowledge, and the new subjects a foundation for rather than an anticipation of, high school work.

The voluntary work done in sewing last year has now developed into a regular school exercise, in which the girls of the four upper grades meet Miss Bean for one period a week, while the boys at the same time meet for drawing with Miss Tenney. Much interest is shown in both classes.

Notable advance has been made during the year in safeguarding the children's health. The medical inspection act, adopted by the district at the last school meeting, has been efficiently administered by the school physician, Dr. Blanchard, and by the teachers. A physical examination of each child has been made, and a statement of defects sent to the parents. The installation of flush closets in the basement, with separate stairways for boys and girls, in place of the objectionable out-houses in the rear of the school-house, is a change heartily appreciated by all. The installation of additional drinking fountains fills a felt need. The attempt is now being made, under direction of the school physician, to limit the spread of bacterial infection by thoroughly airing the rooms after school each day, and then spraying them

with disinfectant. The prevalence of colds and influenza is markedly less than in previous years.

The closing exercises of the eighth grade, in June, were especially happy. Advantage was taken of the beautiful situation of the school house and the ample grounds to render scenes from Hiawatha, which were the natural outgrowth of school studies.

Rural Schools.

Four rural schools have been open during the year. In two of these, the Plummer and the Lower Province Road, the enrollment has been very small. In three of these schools a number of pupils bring lunches, and spend the noon hour at school. Each of the three has been furnished with an oil-stove and simple outfit of cooking utensils. The children have brought articles necessary for individual use, and a warm dish, such as hot cocoa, soup, eggs, or mashed potatoes, is often cooked to accompany the cold lunch. I consider this an important addition to our school activities, for the warm lunch in cold weather is a benefit to the health of pupils, and the teacher has an opportunity for training in good house keeping, and in habits of refinement. The noon hour in school, spent in rough-house play or worse, is often a demoralizing hour. Spent in active, co-operative effort it becomes one of the most profitable hours of the day.

The rural schools as well as the Gale have been included in the operations of the medical inspection act, and an examination of every pupil has been made. The schools are in excellent condition; in my judgment they have never been more efficient. The school district is fortunate indeed to command the services of a body of teachers of such high character, intelligence, enthusiasm, industry, and devotion.

Respectfully submitted,

Charles A. Breck, Supt.

AUDITOR'S REPORT.

I have carefully examined the accounts and statements presented in this report, by the selectmen, highway agents, town treasurer, treasurer of the school district, treasurer of the public library, the school board, town clerk, commissioner of the water works, and find the orders issued represented by receipted bills, and the different items of the cash paid out by the several treasurers sustained by proper vouchers, and all accounts correctly cast. I have also examined the books of the tax collector and find he collected of the 1912 tax the sum of $387 50, of the tax of 1913 $455.09 of the tax of 1914 the sum of $15,051.39, also $88.39 interest, and $10.00 for picking brown-tail moths, all of which he has turned over to the town treasurer for which he holds the proper receipts.

February 20, 1915.

EDWIN C. BEAN, Town Auditor.
